Ad Lectorem.

EN tibi hic offerimus, amice Lector, Horti Medici Oxonienſis, ſtirpium & plantarum Catalogum: quem eâ de cauſâ publicum fecimus, ut de ſummâ Roberti, hortulani noſtri peritiſſimi, diligentia conſtet; cujus curâ & induſtriâ, tanta rei Botanicæ, brevi tempore incrementa acceſſerint. Non eſt nobis animus totius Horti rationem reddere: de mœnierem & portarum ſtructura, de ambulacris, quadris, pulvillis, & aquagiis ſermonem inſtituere; Hæc aliàs transferenda cenſuimus, cum Hortus noſter, Honoratiſſimi Comitis Danbeii ſumptibus conſtructus, & ejuſdem

ficentia dotatus exoptatum ab omnibus perfectionem adeptus sit. Quod sub Nobilissimi fratris & hæredis sui, Domini IOHANNIS DANVERS, Equ: Aur: auspiciis propediem fore confidimus. Vt gratias utrisque quas possumus summas, prosuis in Academiam meritis referamus, & ne diutiùs desit Academiæ, quod in usum medicum, bonum totius Regni publicum, tantum conferat. Habes interim Mille sex centas stirpes, quibus hic locus instructus est; quarum nomina hoc nostro Catalogo alphabeticè enumerantur: quibus etiam adjectæ sunt vernaculæ voces quibus nostrates eas distinguere solent. Quod in usum Botanices studiosorum factum esse existimes, ut uno intuitu stirpes ipsas, earumque nomina complectentes, exterarum peregrinationum curas & molestias tutò dimittant. Vale.
